

## DEVELOPING AN ACTION PLAN

**Directions:** Now it's your turn to plan how you can take the information from this presentation back to your classroom/center. Using the table below, outline five extended conversations you can have with the children in your classroom. Be sure to match your strategies to the ages and language development of the children in your care.

When can I engage children in extended conversations? (time of day/location in classroom)	During this time, what can I talk about with children? (topic and how it relates to children's lives and interests)	What open-ended questions can I ask to extend the conversation?
