Considerations When Choosing a Teaming Activity

With your team, consider the following questions:

- *Which strategies would best enhance this team's functioning?*

- *Why did you choose the strategies? Start with the priority areas you identified in Session 5.*

- *What considerations would you have in using these strategies (for example: time, expertise, use of outside facilitator, and so on)?*

- *What concerns would you have about using a particular strategy?*

- *What skills and resources would you need to implement the strategies?*
