

Getting My Turn to Talk in Class

My name is _____ and I am _____ years old.
I go to preschool at _____.

There are many children in my classroom who like to talk.

In my classroom, we need to take turns talking during circle time. It is important for only one person to talk at a time. It is hard for my teacher to hear one student talk if everyone else is talking at the same time.

When I want to say something to the teacher during circle time, I will try to raise my hand and sit quietly. I will wait for the teacher to call on me.

Sometimes the teacher will call on me right away. Other times, I might have to wait for my turn to talk.
