

Playing with Friends

My name is _____ and I am _____ years old.
I go to preschool at _____.

There are lots of fun toys and children to play with at school.
During free play time I get to choose where I want to play.
Some of my favorite places to play are _____
and _____.

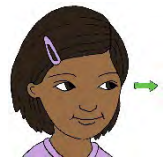

During free play it is OK to play alone, but it is also a good
time to play with friends.

I can look around the room to find a friend to play with.

I can carefully watch what my friend is doing. Then I can find
a toy that is the same and do the same thing as my friend.

I can also ask my friend to play something different with me.
I can ask, "Do you want to play with blocks?" If my friend says
"yes," we can play together! If my friend says, "no thanks,"
I can find someone else to ask.

It's fun to play with friends!
