Virtual Family Engagement Planning Tool

Take a moment to consider the following questions and write down your thoughts before you begin to develop a virtual family engagement action plan.

What are the virtual family engagement strategies your program is currently using?

What data could you collect to evaluate these strategies? What feedback have you received from families and staff on these strategies?

What is your process for making decisions about the virtual family engagement strategies your program offers? How can families and staff be part of that decision-making process? Consider using the four [Measuring What Matters](#) data activities to support family progress toward positive outcomes: Prepare, Collect, Aggregate and Analyze, and Use and Share

What unique opportunities are possible through virtual family engagement to help improve family and child outcomes?
