

## Measurement, Video 2

Teacher: Do you guys have hands? Who else has a hand? Now, if we look at this hand and we look at our own hands, which one is bigger? Which one -- Which one is bigger?

Boy: This.

Teacher: This hand. Oh, but if we look at my hand, which one is bigger? This hand or my hand? This hand. Now, if we look at your hand, which one is the biggest? Which one is the smallest?

Girl: Mine. Mine.

Teacher: Which one's in between?

Girl: Yours.

Teacher: Oh, okay. Whose hand is that?

Girl: A giant hand?

Teacher: A giant hand. It reminds me of the hand we saw here. And whose hand is this? Who do you -- Whose hand do you think this might be?

Girl: Yours. Teacher: You're right. It's my hand. I traced it. And what I want us to try now today, my friends, you're right. I-I got it out, and I put the marker, and I traced all around. And what I want to do with you is trace your hands.
